

Note: there is a little arrow ">" on one of the pieces of the popcorn basket that will be visible on top once you've completed the puzzle. The direction of this arrow signifies what solution you've found.

If the arrow is pointing directly toward or away from the MIT logo on the front of the basket, you have found solution 1, the easier solution.

If the arrow is pointing toward a side of the basket adjacent to the MIT logo (the sides where the basket handle attaches), you have found solution 2, the harder solution.
